SUMMARY

Data Analyst who builds ETL pipelines, analyzes complex datasets, and ships production software across fintech, oil & gas, and environmental research. Combines a Computer Science (Data Analytics) degree and Economics minor with hands-on financial markets and risk analysis. Skilled in Python, SQL, Power BI, and Azure.

WORK EXPERIENCE

Neo Engineering Solutions — **Remote**
Software Engineer — *Sep 2026 – Present*
- Develop AI-driven engineering software used by oil & gas engineering teams, delivering features and data-processing improvements from requirements through code review and release.
- Diagnose and resolve software and data-quality defects across production codebases; maintain technical and audit documentation supporting compliance.

Lock21 (Local Startup) — **Peterborough, ON**
Backend Engineer — *Jun 2026 – Present*
- Architected the backend from scratch for a POS-integrated loyalty platform: PostgreSQL schema on Supabase and a Node.js/Express REST API serving the iOS app under a documented API contract.
- Integrated Square POS via OAuth and webhooks, verified end-to-end in a live sandbox, so qualifying purchases automatically earn points; built a rules engine for reward thresholds and per-business claim windows.
- Built business-owner authentication with device management, rotating single-use QR tokens, and SMS verification; hardened the API with input validation, phone-number normalization, and centralized error handling.

ReceivECO (Fintech Startup) — **Peterborough, ON**
Data and Product Developer — *Jun 2025 – Dec 2025*
- Built and launched a receipt-tracking platform for individual and SME users integrating OCR, bank APIs, POS systems, and QuickBooks for automated expense reporting.
- Implemented end-to-end encryption aligned with PCI DSS and PIPEDA; shaped go-to-market strategy and partnerships.

Trent University — **Peterborough, ON**
Student Teaching Assistant — *Sep 2022 – Apr 2025*
- Lab Demonstrator & Academic Assistant: Delivered ML, data preprocessing, and OOP instruction to 30+ students per session; ran workshops on algorithmic problem-solving and mathematical modeling.
- Student Marker & Tutor: Assessed 200+ submissions across web development, algorithms, and calculus for technical correctness and documentation quality; tutored drop-in calculus sessions.

Atria University — **Bengaluru, India**
Data Analyst Intern — *Jun 2024 – Jul 2024*
- Analyzed 5+ satellite datasets (Sentinel-5P, MODIS, Landsat) on 4 environmental indicators in Python and Earth Engine.
- Built automated geospatial ETL pipelines that cut processing time by 50%; presented findings to policy researchers.

PROJECTS | kruzxee.github.io/projects/

U.S. Medical Insurance Costs — Data Analysis | Python, Excel
- Mined and analyzed 1,300+ insurance records to identify key cost drivers — age, BMI, smoking status, and region — producing visual dashboards with statistically validated correlations.

ASL Recognition Neural Network | C++, OpenMP, MPI
- Built a neural network from scratch classifying 24 ASL sign classes across 27,000+ images at 92%+ accuracy; parallelized training with OpenMP to reduce computation time.

Database Design: Student & Alumni Job Outreach System | SQL
- Designed a normalized relational database (3NF/BCNF) with ER/UML diagrams, SQL triggers, and role-based access control, intended to scale to 1M+ users for recruitment matching workflows.

SKILLS

Data Analysis: Python (Pandas, NumPy, Scikit-learn), SQL, R, Excel (advanced), statistical analysis, data cleaning, EDA
BI & Cloud: Power BI, Tableau, data visualization, Microsoft Azure, Google Cloud (GCP), Google Earth Engine, Jupyter
Engineering: ETL pipelines, PostgreSQL, SQL Server, REST APIs, Node.js, Express.js, C++, Java, Git/GitHub, CI, Agile
Finance: Financial markets analysis, risk management, financial modelling, technical analysis, PCI DSS/PIPEDA
Certifications: Microsoft Azure Data Fundamentals, Microsoft Azure AI Fundamentals, DataCamp Python Data Associate, Google Cloud Introduction to Generative AI, Canadian Investment Funds Course

EDUCATION

Trent University
BSc. (Honours) Computer Science, Data Analytics Specialization, Minor in Economics — *Jan 2022 – Apr 2025*
- President's Honour Roll (2024-25) · Dean's Honour Roll (2021-22, 2023-24) · Coursework: Data Mining, AI, Financial Economics, Risk Management
